5-40x56

A CLEARER OVERVIEW AND DETAIL ACCURACY

The large field of view provides an optimum overview, while the high magnification reveals more details to securely judge the game. The generously proportioned eyebox also provides high levels of comfort when observing.

EXTRA-LARGE EYEBOX

The generously proportioned eyebox allows accurate acquisition of the target even if your eye is not precisely positioned. In particular in hunting situations where quick reactions are crucial, it offers a clear advantage. It allows you to move your head flexibly without losing sight of the target. This allows easier targeting and a precise shot at the critical moment.

PRECISE AND RELIABLE

By providing more details, the Z8i+ 5-40x56 allows more accurate judgement and precise target acquisition. This ensures additional security for ethical hunting.

TECHNICAL DATA

	Z8i+ 5-40x56
Magnification	5 - 40
Effective objective lens diameter (mm)	40.5 - 56
Exit pupil diameter (mm)	8.0 - 1.4
Eye relief (in)	3.74
Field of view (m/100 m/ft/100 yds)	94.4 - 1.2 / 28.2 - 3.6
Field of view (degrees)	5.4 - 0.7
Field of view, apparent (degrees)	26.4
Light Transmission (%)	93
Diopter adjustment (dpt)	-3 to +2
Impact point correction/click (cm/100 m/in/100 yds)	1 / 0.36
Max. elevation/windage adjustment range (m/100 m/in/100 yds)	1.6/1.0 / 57.6/36.0
Approx. length (mm/in)	371/14.6
Approx. weight (g/oz)	870/30.7 890/31.4
Central tube diameter (mm/in)	34/1.34
Battery	3V, CR 2032
Brightness Levels	64

Functional temperature: -20°C to +55°C (-4/+131°F) · Storage temperature: -30°C to +70°C (-22/+158°F) ·
Submersion tightness: 4 m (13 ft) (inert gas filling)
